

GRANITE STATE PODIATRY ASSOCIATES

COVID-19 UPDATE

Dear Patients:

Granite State Podiatry Associates is considered an essential service during the Governor's Stay Home Order, and remains open during the COVID-19 public health emergency so that we can continue to meet our patients' needs.

We, at Granite State Podiatry, share your concerns about COVID-19 infection in all public places including our office. We want to assure you that our staff has heightened our sterilization efforts in the office to reduce the risk of transmission to ourselves and to you. We are sanitizing and sterilizing our waiting room, exam rooms, and restrooms several times throughout each day. Doctors and staff will be wearing gloves and masks when appropriate.

During this time, upon visiting our office in Manchester or in Bedford, and after checking in and being screened, including taking your temperature, you will have the option to wait outside in your car and be notified via text message when your exam room is available. We ask that all non-patients, unless accompanying the elderly or a child, please wait in your car and do not come into the office.

If you have a fever, cough, respiratory illness and/or have been around someone who may have come in contact with COVID-19, please call us at 603-668-3509 to discuss your upcoming appointment. We are working in close proximity with all patients and want to ensure we are taking necessary precautions to make the office a safe environment for everyone.

Additionally, in order to maintain social distancing guidelines we may be calling you to ask if it is possible to move your appointment to another time or even date. We thank you in advance for your patience and understanding.

We also want you to know that if you do not want to keep your scheduled appointment with us we understand and respect your decision. We only ask that you notify our office as soon as you are able to. We will be happy to reschedule your appointment to a date that is more convenient for you.

Please do not hesitate to reach out with any questions or concerns.

Sincerely,

Granite State Podiatry Associates
